

FIWARE Policy Manager - User and Programmers Guide

Introduction

Welcome the User and Programmer Guide for the Social Semantic Enricher Generic Enabler. The online documents are being continuously updated and improved, and so will be the most appropriate place to get the most up to date information on using this interface.

Background and Detail

This User and Programmers Guide relates to the Social Semantic Enricher GE which is part of the [Data Chapter](#). Please find more information about this Generic Enabler in the following [Open Specification](#).

User Guide

Once built the projects just creates lucene indexes from dbpedia/wikipedia dumps. See Installation Guide on how to build the project

Programmer Guide

Since this is a standalone component, there is no need of programmer guide.

Installation and Administration Guide

SSE Indexes Builder

SSE Indexes Builder is a project for creating the Lucene Indexes of [SSE] (<https://github.com/SSE/sse>), a tool for classifying and enriching English and Italian textual documents via [Linked Open Data](<http://linkeddata.org/>). This project is based on a customized version of [DBpedia Spotlight](<https://github.com/dbpedia-spotlight/dbpedia-spotlight/wiki>), a tool for automatically annotating mentions of DBpedia resources in text.

##Documentation

More documentation is available from the [SSE Index Builder wiki] (<https://github.com/sse/dbpedia-spotlight/wiki>).

Licenses

This customized version of DBpedia Spotlight for creating SSE Indexes can be used under the terms of the [GNU Affero General Public License 3.0] (<http://www.gnu.org/licenses/agpl-3.0.html>).

Part of the code uses [LingPipe](<http://alias-i.com/lingpipe/>) under the [Royalty Free License](<http://alias-i.com/lingpipe/licenses/lingpipe-license-1.txt>). Therefore, this license may also apply to the output of the currently deployed web service.
